BARRIER FENCING

CCBR 012

FTWN-010

Description

Dromex® high visibility barrier fencing and safety mesh, protects workers and people from potential hazards as they provide a visual warning due to their bright colours and prevents access to unauthorised areas.

They are cost effective systems, that is mobile, light weight, flexible, weather durable and can be erected in minutes.

These safety barriers fencing and safety mesh systems are suitable for use when cordoning off areas on construction sites, roadworks, for restricted access areas, crowd control and sporting events.

Dromex® safety mesh non-woven design, also keeps out debris.

They can be fastened to a barrier or anchorage point with cable ties and rope wire.
